**You can't just give someone a creativity injection. You have to create an environment for curiosity and a way to encourage people and get the best out of them.**

# TED

What is TED? TED (Technology, Entertainment, Design) is a media organization which posts talks online for free distribution, under the slogan "ideas worth spreading". TED was founded in February 1984 as a conference, which has been held annually since 1990. TED's early emphasis was technology and design, but it has since broadened its focus to include talks on many scientific, cultural, and academic topics.

**Rory's Story Cubes** is a set of nine six-sided dice, each with a different image on them. They are meant to inspire storytelling and creative play. As the brain thinks in pictures but communicates in words, having a visual aid to creative problem solving would be advantageous. Using images to trigger stories would help the brain think in new ways.

**Creativity is putting your  
imagination to work, and it's  
produced the most  
extraordinary results in  
human culture.**

**Storybirds** are short, art-inspired stories you make to share, read, and print. It is a fun, collaborative, storytelling website. Users choose from art hosted on the site and build a story around those images that can then be shared with family and friends. Storybird encourages creativity and is a web tool that supports working collaboratively.

**The role of a creative leader is  
not to have all the ideas; it's to  
create a culture where everyone  
can have ideas and feel that  
they're valued.**
